

MAC OS PPPoE Configuration

These steps will help you configure your Macintosh Computer to PPPoE for CALEA compliance. Please follow these steps all the way to the end!

1. Inside the Apple Menu, choose **System Preferences**

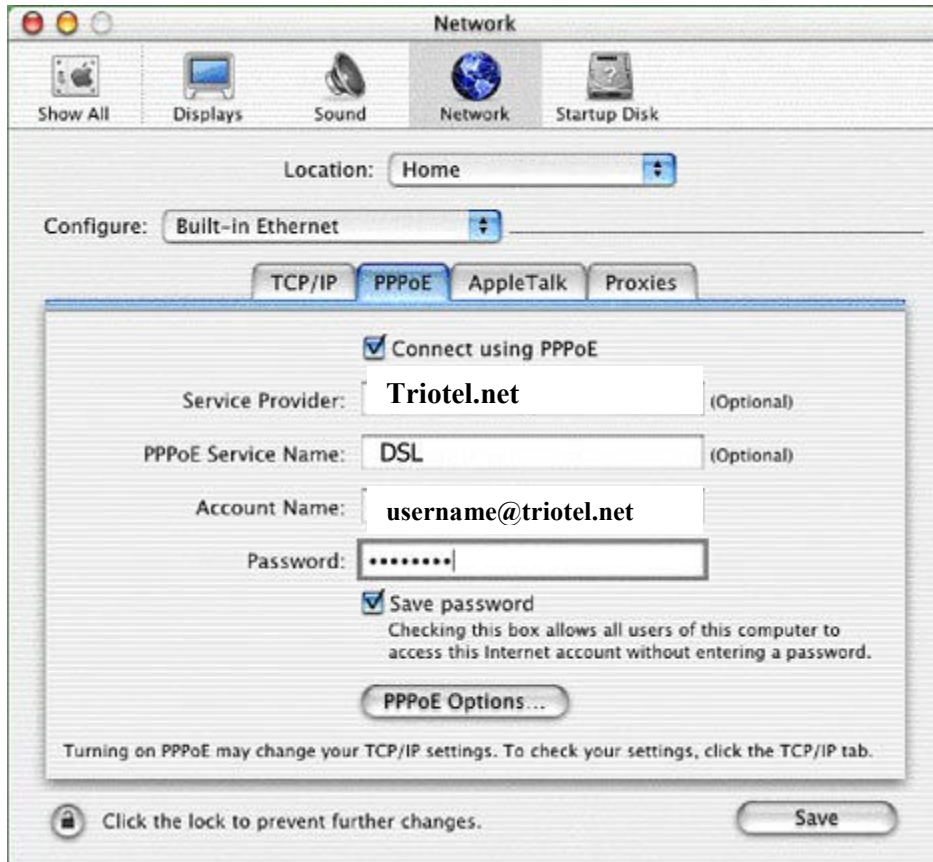

2. Click on the **Network Icon**

3. 1.) Click on the **TCP/IP** Tab. 2.) From there, click the Configure drop down list and select **Built in Ethernet**.

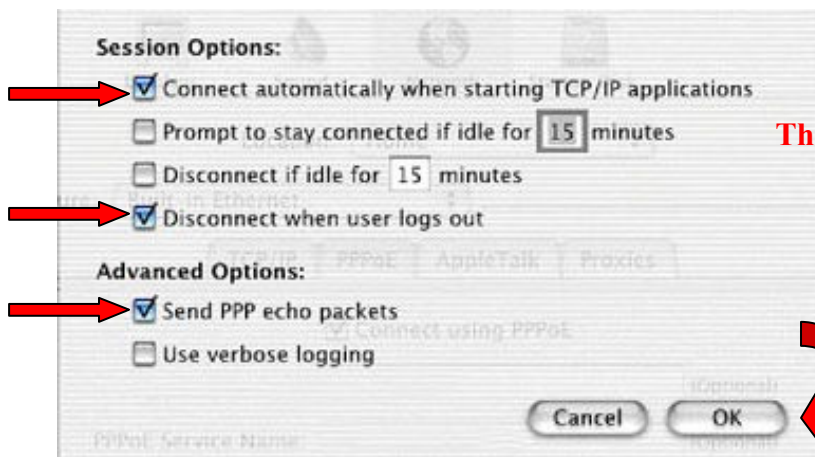

4. Click the **PPPoE** tab

- Make sure that the **Connect using PPPoE** checkbox is checked
- In the Service Provider, type **Triotel.net**
- In the PPPoE Service Name, type **DSL**
- In the Account Name, type in your triotel.net e-mail address
- In the password, type in the password you use to connect to Triotel E-Mail.
- Check the **Save password** checkbox.
- Click the **PPPoE Options** button

5. You should now see a screen like this:

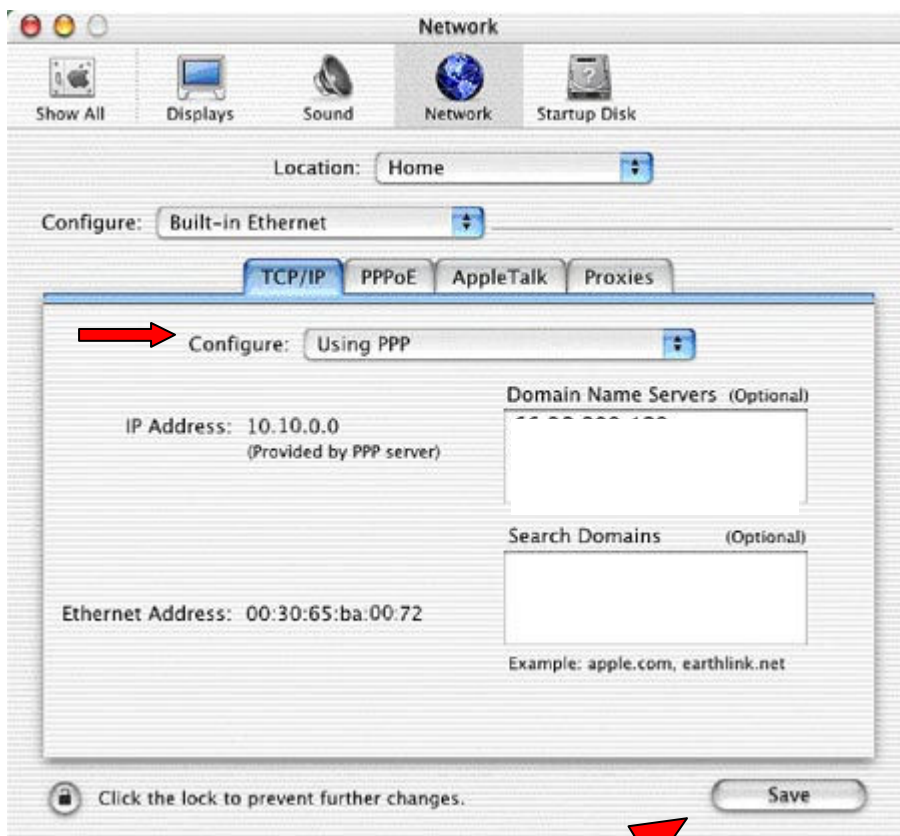

These 3 buttons must be checked!
Uncheck the ones that are unchecked in this picture

Then, click the OK button

6. Click the **TCP/IP** Tab

7. Click the drop down box next to Configure on the TCP/IP page and select **Using PPP**

8. Click the **Save** button

Congratulations!
You have now configured your Mac Computer
to PPPoE for CALEA compliance.
