App Features:

Guide

The Guide allows users to view up to twelve days of guide information. Programs may be selected from within the guide to view program information and schedule future recordings. Users may tune their TV to a channel by selecting that channel.

Search

This action allows the user to search by keyword or phrase for a specific program. Search results may be selected to view program information and schedule future recordings.

Recordings

All existing and scheduled recordings may be viewed within the Recordings action. Users may select a DVR from within their home and view either Current, Future and Series recordings.

Remote

This action allows the user to use their iPhone as a functional remote control.

More:

What's Hot

The What's Hot app provides the user with real time information about the most popular watched programs in the user's area; as well as the most popular recordings and most popular series. Programs may be selected from within the What's Hot App to view program information and schedule future recordings. Users may tune their TV to a program by selecting "Watch" next to that program.

Settings

Users can customize the Guide by setting how many hours of guide information are displayed, determine sign-in information, view admin log and sign out.
