Federal Universal Service Charge Notice

Effective January 2024, the Federal Universal Service Charge (FUSC) contribution factor will increase from 34.5% to 34.6%. This will result in an increase in the charge that appears on your monthly telephone bill. The factor is applied to services designated as interstate by the FCC and changes from time-to-time based on the needs of the federal universal fund. The federal universal service fund was established and is maintained to ensure that all consumers, regardless of location, have access to essentially the same telecommunication services at affordable prices. The fund also provides schools, libraries, low-income consumers and rural health care providers with assistance in obtaining telecommunication services.
